AVAILABLE OPEN EDUCATION RESOURCES

Model on the role of libraries as communication channel towards Open Education Resources (OER) utilization to learners presented in Philippines Country Report in the 15th Meeting of the AUNILN: Libraries of ASEAN University Network:

The following lists are non-exhaustive and might be subject to change without prior notice. Following the model in Section 3.1, the following are the recommended activities to be carried out by the libraries towards the promotion of OER utilization to learners:

- An index or pathfinder will show the available OER resources in the library.
- Creation of a one-stop platform for each department/college containing a collection of readings for each course/topic. Faculty members are encouraged to contribute or build such collections.
- Initiate marketing campaign – infographics, videos, webinars, etc. containing instructions on how OER works, etc.
- Students may be taught to curate OERs as an online portfolio through the CU Learning Management System or reference management systems (i.e., Zotero, Mendeley, EndNote, etc.)
